

30^{ok} 80 - 2/1/2018

By Citizen Petition

FEB 01 2018

Shall the Town of Chesterfield, NH express its support for NH to join existing efforts in Massachusetts and Maine to study the feasibility of developing offshore wind power in the Gulf of Maine, by providing written notice urging Governor Sununu to request the formation of an intergovernmental task force. A bipartisan NH legislative committee studied offshore wind in 2014 and recommended the establishment of the task force. Floating wind turbines located far offshore in federal waters and barely visible from land, combined with other renewable energy sources, would help move NH to 100% renewable energy by 2050. The building of offshore wind farms would also bring significant jobs and income to NH.
