Town of Chesterfield

Health Office

Mary's Kitchen a mobile food cart vendor

I conducted a virtual inspection with pictures and site visit to route 9 Location in Chesterfield. The site plan and placement of the mobile food cart meets the zoning setbacks required in Chesterfield.

The mobile food cart meets the state health guidelines for food vendor & NFPA -1 2015 Life Safety code for mobile kitchen.

A in person inspection of the mobile food cart on the proposed site will be required before occupancy can be granted for operation.

Thank You

Steven J Dumont
