---

I just walked back into the office and had a message from Jim Loney. He stated that he had heard about my memo sent to the planning board. He further stated something to the effect of already having an established driveway to that property off of Poocham Road. If their plan is only allow access from the driveway on Poocham Road, that would alleviate the issues for westbound traffic. Poocham Road is already an established road in the Town of Chesterfield and I certainly cannot stop someone from utilizing an already established Town Road to access their property. A caveat would also be to include that there will be no access to this business from Route 9 and further discourage anyone from parking along Route 9 while they obtains goods from the food cart.

Thanks

Duane
